

Abir Khan

Energy SaaS · Founders Associate · «M.Sc. field, e.g. Management & Technology»

«city, country» | abir@scaile.tech | «+49 ...» | linkedin.com/in/khan-abir

PROFILE

«Final-year M.Sc. «field» student at «university»» with hands-on operating experience in «energy SaaS domain — e.g. flexibility, grid, metering, retail energy», where I «one concrete, quantified outcome». Fluent in German and English, and drawn to ECON for the chance to work the commercial and technical sides of the energy transition in one team.

EDUCATION

M.Sc. «Programme» — «University» «MM/YYYY – MM/YYYY»

Grade: «e.g. 1.4 / top 10%» · Focus: «energy economics, strategy, ...»

- «Thesis / scholarship / exchange semester — keep only if it signals energy, analytics or international exposure»

B.Sc. «Programme» — «University» «MM/YYYY – MM/YYYY»

Grade: «grade»

PROFESSIONAL EXPERIENCE

Founders Associate — «Company», energy SaaS «MM/YYYY – present»

«City» · «stage — e.g. Seed, ~15 FTE»

- «Own a P&L-adjacent workstream: what you owned, for whom, and the number that moved»
- «A commercial win — pipeline, pricing, GTM or a named utility/industrial customer landed»
- «An analytical piece — market sizing, tariff/flexibility model, build-vs-buy — and the decision it drove»
- «Cross-functional delivery — worked across product/eng/commercial to ship X»

«Role» — «Company» «MM/YYYY – MM/YYYY»

- «Bullet — prioritise anything consulting-flavoured or energy-adjacent»
- «Bullet with a quantified outcome»

«Role» — «Company» «MM/YYYY – MM/YYYY»

- «Single strongest bullet — compress older roles to one line each»

LEADERSHIP & INITIATIVE

Organiser, HackNation — MIT × Technical University of Munich «MM/YYYY»

- Co-organised «MIT-affiliated hackathon» in partnership with TUM, coordinating «N» participants, «N» partner organisations and a «€X» budget across two institutions and time zones.
- «Second bullet — sponsor/stakeholder management, or an energy/climate track you ran»

«Society / volunteering / competition» — «Organisation» «YYYY»

SKILLS & LANGUAGES

Languages German «C1 / fluent» · English «C2 / fluent» « · other languages»

Analytical «Excel/financial modelling, SQL, Python, Power BI/Tableau — strongest first»

Energy domain «e.g. flexibility markets, tariff design, grid economics, PPAs, EU energy regulation»

Certifications «only if genuinely relevant — otherwise delete this row to buy space»
