Oliver Wyman
Graduate Recruiting, Middle East

Application: Consultant, Dubai / Doha

Dear Oliver Wyman Recruiting Team,

I finish an MSc in Finance at Nova SBE in December 2026 and would like to join the Dubai or Doha intake. Since 2022 my work has run to one pattern: establish what the client needs to know, go and get the evidence, then hand the answer to the person who has to act on it.

At Alvarez & Marsal I ran a turnaround workstream for Fortune 500 clients in U.S. Chapter 11, across more than \$100M of debt and lease obligations. The scenario models I built sat under a \$9.8M risk-mitigation plan that went to the board. I traced operating and cash-flow problems back to what was causing them, and wrote the creditor-negotiation materials that held \$2.5M of enterprise value in place.

The front half of that pattern I learned earlier. Trariti Consulting Group had me advising VC and PE firms on early-stage growth strategy; I ran over 90 stakeholder interviews there and turned them into recommendations for a product with more than \$10M in revenue. At Biome Venture Studio I took 3,000+ companies through a \$170M pipeline, judging each on market size, competition and how far it could scale.

A case competition is the same work under a clock. I placed in the top three of 15,000 in India's National Case Study Challenge, and this year led my team at the Draycott Private Equity Challenge.

«Why Dubai or Doha. One or two sentences, in your own words. Your CV gives a Munich address and no Gulf connection, so this paragraph is the only place the question gets answered.»

«Why Oliver Wyman and not another firm. Name something specific: a piece of their work you have read, someone there you have spoken to, an event you attended.»

I am available from January 2027 and would move to either city. My CV and transcripts are attached.

Yours sincerely,

Abir Hilal Khan
