PROFILE

«Final-year M.Sc. «programme»» at Nova SBE and Founder's Associate at SCAILE, a Munich AI-search startup, where I own «workstream» end to end. I move comfortably between commercial and technical work, have built and run an international programme from scratch, and want to apply that to the economics of the energy transition. Fluent in English and «German level».

EDUCATION

M.Sc. «programme» — Nova School of Business and Economics, Lisbon «MM/YYYY – MM/YYYY»
Grade: «grade / rank» · Focus: «relevant courses»

«B.Sc. programme» — «university» «MM/YYYY – MM/YYYY»
Grade: «grade»

PROFESSIONAL EXPERIENCE

Founder's Associate — SCAILE, Munich «MM/YYYY – present»
Seed-stage B2B SaaS — AI-search visibility for enterprise brands

- «What you own end to end — the workstream, who it serves, and the number that moved»
- «A commercial result — pipeline built, customers landed, revenue or retention moved»
- «An analytical piece — market sizing, pricing model, build-vs-buy — and the decision it drove»
- «Cross-functional delivery across product / engineering / GTM»

«role» — «company — the one replacing TCG» «MM/YYYY – MM/YYYY»

- «Bullet — lead with anything consulting-flavoured or energy-adjacent»
- «Bullet with a quantified outcome»

LEADERSHIP & INITIATIVE

Organiser — Hack-Nation Global AI Hackathon, in collaboration with the MIT Sloan AI Club «YYYY»

- Helped run a **24-hour global AI build sprint** drawing engineers from MIT, Harvard, Stanford and **60+ countries**, with \$28k in prizes and \$160k in partner API credits from OpenAI, Cursor and Lovable.
- «Your specific remit + the TUM side — what you owned: partners, participants, logistics, a track you ran»

SKILLS & LANGUAGES

Languages **English** «level» · **German** «level — E.ON requires fluent» « · others»

Analytical «financial modelling, SQL, Python, BI — strongest first»

Interests «energy-transition topics you can actually discuss in an interview»
